

FOR IMMEDIATE RELEASE

Naiku and Infinite Campus Leverage IMS® LTI Standard to Integrate Solutions

Partners leverage the IMS® LTI standards to demonstrate interoperability between assessment and student information system solutions, providing industry leading ease-of-use

(BLAINE, MN) October 24, 2016 – [Naiku](#), provider of award-winning, next-generation assessment management software, and [Infinite Campus](#), the most trusted name in student information systems, announced today a partnership for integrating Naiku’s assessment solution within Infinite Campus.

The integration leverages the IMS® LTI interoperability standard to seamlessly work together, aiding workflow and ease-of-use for teachers and students. Teachers can accomplish tasks in Naiku, such as creating, importing, selecting, and/or assigning tests, directly from their Infinite Campus account. Similarly, students can take tests in Naiku directly from Infinite Campus; no separate login is required into their secure account. Data, such as assessment scores, transfers automatically to Infinite Campus as well.

“We’re a strong proponent of the LTI standard and proud of our industry contributions to create this standard,” says Charlie Kratsch, Founder and CEO of Infinite Campus. “We congratulate Naiku on this integration and we are excited to share this development with our customers.”

Many Naiku customers currently use Infinite Campus, and the partners are currently demoing pre-release versions of the integration to educator customers. “We think that our shared customers will love the benefits that this integration provides them,” says Greg Wright, Naiku CEO. “We’re excited to share this new integration with our customers.”

About Naiku:

Naiku is devoted to improving K-12 learning by providing next generation, learner-centric, classroom assessment software. Naiku provides educators the ability to readily measure, track, and view student proficiency in any subject area for informed and differentiated instruction at all levels, from individual classrooms to district-wide. Unique student engagement tools help educators personalize learning. With Naiku, Better Assessment leads to Better Learning. www.naiku.net.

About Infinite Campus:

Infinite Campus, the most trusted name in student information, manages 7.7 million students in 45 states. For more than 20 years, Infinite Campus has successfully implemented its solutions for customers of all sizes, from those with fewer than 100 students to those with more than 600,000 students. Infinite Campus customers include school districts, regional consortia, state departments of education and the federal government. www.infinitecampus.com
